O R D E R

On April 8, 1997, Pendleton County Water District ("Pendleton County") submitted an application for a Certificate of Public Convenience and Necessity to construct a \$761,100 waterworks improvement project, for approval of its plan of financing for this project, and for adjustments to its water service rates. This project will provide service to 122 additional customers. Project funding includes a \$747,000 bond issue to be purchased pursuant to an agreement with the U. S. Department of Agriculture's Rural Utilities Service ("RUS"), and \$14,100 from applicants for service in the proposed project area.

Pendleton County's application was made pursuant to KRS 278.023, which requires the Commission to accept agreements between water utilities and the U. S. Department of Agriculture or the U. S. Department of Housing and Urban Development and to issue the necessary orders to implement the terms of such agreements within 30 days of satisfactory completion of the minimum filing requirements. Given that minimum filing requirements were met in this case on April 8, 1997, KRS 278.023 does not grant the Commission any discretionary authority to modify or reject any portion of this agreement.

IT IS THEREFORE ORDERED that:

1. Pendleton County is hereby granted a Certificate of Public Convenience and Necessity for the proposed construction project.

2. Pendleton County's proposed plan of financing with RUS is accepted.

3. Pendleton County is authorized to issue bonds not to exceed \$747,000.

4. Pendleton County shall file a copy of the "as-built" drawings and a certified statement that the construction has been satisfactorily completed in accordance with the contract plans and specifications within 60 days of the substantial completion of the construction certificated herein.

5. The rates set out in Appendix A, which is attached hereto and incorporated herein, are the rates approved for service rendered on and after the date of this Order.

6. Pendleton County shall submit its revised tariff setting out the rates in Appendix A within 30 days of the date of this Order.

7. Pendleton County shall monitor the adequacies of the expanded water distribution system after construction. If the level of service is inadequate or declining or the pressure to any customer falls outside the requirements of 807 KAR 5:066, Section 5(1), Pendleton County shall take immediate action to bring the system into compliance with Commission regulations.

Nothing contained herein shall be deemed a warranty of the Commonwealth of Kentucky, or any agency thereof, of the financing herein accepted.
